

# Self-Portrait T-Shirts

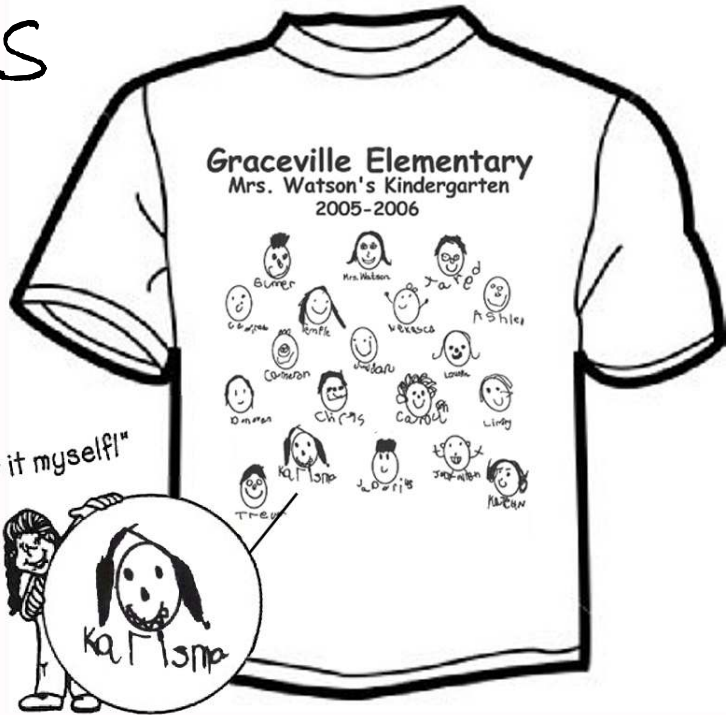

## Parents Love this Heart-warming Activity!

Ever wonder how your children view themselves in this great big world? How they think they fit in? How other children see them?

Here's a special art project that surely answers some of these questions - it's called **"Self-Portrait T-Shirts"**. It's a simple concept with wonderful results!

"I drew it myself!"

## Here's how it works...

Your students begin this exciting activity by drawing practice pictures of their friends. Once everyone's comfortable with sketching portraits, each child is asked to draw their self-portrait on a special Sketch Sheet we provide. **It's self-expression at its best!**

After all self-portraits are finished we'll group them by classroom like the one shown above and screen print them on the items your parents have ordered.

## Fundraising that's Fun!

**"Self-Portrait T-Shirts"** is very popular with our schools and child care centers across the nation; the resulting volume allows us to bring each self-portrait item to you at a very low cost. Pass the prices directly to your parents or add your mark-up to raise significant funds for your school. Either way, these one-of-a-kind creations will be treasured by your parents for years to come!

**"Self-Portrait T-shirts"** is supplied by Santa Claus Publishing & Tees
